Chairman's Message

Dear Shareholders,

It gives me immense pleasure to present the **36th Annual Report of Surana Telecom and Power Limited for the year 2024-25**. Over the past three and a half decades, your Company has navigated multiple phases of transformation, adapting with resilience and foresight to an evolving business environment. This year has been a testimony to that spirit of adaptability and growth.

During the year under review, the Company delivered strong financial performance. We achieved a consolidated income of **₹5,199.84 lakhs**, a significant increase from **₹3,404.48 lakhs** in the previous year. These results underline not only the strength of our existing business model but also our ability to extract efficiencies and create value in a competitive environment.

Our solar power projects continued to operate steadily under long-term Power Purchase Agreements, providing stable and predictable revenues. At the same time, we undertook selective disinvestment in one of our undertakings, thereby optimizing our portfolio and ensuring that capital is allocated to areas that align with our long-term strategy. This step reflects our commitment to balancing growth with prudent financial management.

A significant development this year is the proposal to amend the Object Clause of the Memorandum of Association. The proposed amendments are designed to broaden the scope of operations by empowering your Company to enter into **Battery Energy Storage Systems (BESS)** and to provide advanced energy-related services such as grid stabilization, frequency regulation, voltage support, and energy trading. These initiatives represent a strategic shift in our journey — from being primarily a renewable power generator to evolving into a comprehensive energy solutions provider.

We are convinced that storage and related services will define the future of the energy sector. As India pursues its ambitious renewable energy targets of 500 GW by 2030 and works toward a net-zero vision, technologies like BESS will play a central role in enabling 24x7 renewable power, integrating diverse energy sources into the grid, and ensuring long-term energy security. By proactively positioning ourselves in this space, your Company is aligning with national priorities while creating new avenues for sustainable growth.

Looking ahead, we see opportunities not only in expanding our solar power footprint but also in leveraging storage and digital technologies to build smarter, cleaner, and more reliable energy solutions. We will continue to explore emerging areas such as hybrid renewable-storage projects, grid support services, and new business models in energy trading. At the same time, we remain committed to operational discipline, governance standards, and financial prudence.

Beyond business, we believe our growth must be inclusive and responsible. We will continue to uphold our values of integrity, transparency, and sustainability, ensuring that our operations contribute positively to society and the environment.

On behalf of the Board, I wish to express my deep appreciation to our shareholders for their continued faith, to our employees for their dedication and innovation, to our customers and partners for their enduring relationships, and to the regulators and government agencies for their guidance and support. It is this collective trust and cooperation that strengthens our resolve to achieve greater milestones.

As we step into the future, Surana Telecom and Power Limited stands at an exciting juncture — firmly rooted in its legacy yet ready to embrace transformation. Together, we will continue to power progress, create sustainable value, and contribute meaningfully to India's clean energy journey.

Warm regards,
Mangilal Narender Surana
Chairman

None of the Directors and Key Managerial Personnel of the Company, or their relatives, is interested in this resolution. The Board recommends the Ordinary Resolution set out at **Item No. 5** of the accompanying Notice for approval by the Members of the Company.

Item No. 6

The Company currently holds 51% equity share capital (i.e., 43,35,000 equity shares) in **Aryavaan Renewable Energy Private Limited ("AREPL")**, a material unlisted subsidiary of the Company. In line with the strategic review of investments and with a view to optimizing the Company's portfolio, the Board of Directors has recommended disinvestment of up to **7% of the equity share capital of AREPL (i.e., 5,95,000 equity shares)** out of the Company's existing shareholding in AREPL

It is proposed that the said shares be transferred to existing shareholders of "AREPL" (related parties) namely:

- **Mr. Arun Kumar Kedia** – 2,97,500 equity shares
- **Ms. Navkar Solar Power Systems LLP** – 2,97,500 equity shares

The transfer shall be carried out at a **fair value** to be determined by an **Independent Chartered Accountant** in accordance with the provisions of the **Income Tax Act, 1961**, and other applicable laws.

Upon completion of the proposed transaction, the Company's holding in AREPL shall reduce to **44%** of its total equity share capital, and accordingly, **AREPL shall cease to be a subsidiary** of the Company. The transaction would therefore also fall under the ambit of **Regulation 24(5) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015** and pursuant to applicable **provisions of Companies Act, 2013** and rules which requires prior approval of the shareholders for sale or disposal of shares in a material subsidiary resulting in the cessation of such subsidiary.

Further, the proposed disinvestment requires approval of the Members by way of a **special resolution**

The Board of Directors is of the view that the disinvestment is in the best interest of the Company and its stakeholders.

None of the Directors and Key Managerial Personnel (KMP) of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the proposed resolution, except to the extent of their shareholding in the Company or interest in the proposed transaction, if any.

The Board recommends the resolution set forth in the accompanying Notice for the approval of the Members as a **Special Resolution**.

Item No. 7:

Your Board of Directors have time to time considered the proposals of diversification Plans in the areas which would be profitable for the Company. For this purpose, the object Clause of the Company, which is presently restricted to a specific scope, requires to be comprehensive so as to cover a wide range of activities to enable your Company to consider upon Adopting new business line and activities.

The alteration in the Objects Clause of the Memorandum of Association as set out in the Resolution is to facilitate diversification.

This will enable the company to enlarge the area of operations and carry on its business economically and efficiently and the proposed activities can be, under the existing circumstances, conveniently and advantageously combined with the present activities of the company.

The "Main Object" clause of the Memorandum of Association of the Company is being hereby accorded to append the following sub clause (12), (13) after sub clause (11) of clause III (A) of the Memorandum of Association of Company:

The Board at its meeting held on 03rd September, 2025 has approved alteration of the MOA of the Company and the Board now seek Members' approval for the same.

Further in keeping with the amendments as introduced by the Companies Act 2013 the Main Objects clause of the Memorandum of Association of the Company, Clause III(A) is accordingly to be titled as 'THE MAIN OBJECTS TO BE PURSUED BY THE COMPANY ON ITS INCORPORATION ARE' The Amendment shall be effective upon the registration of the resolution with the Registrar of the Companies.

The proposed change of object clause requires the approval of shareholders through Special Resolution pursuant to the provisions of Section 13 of the Companies Act, 2013.

None of the Directors, Key Managerial Person(s) of the Company including their relatives are, in any way, concerned or deemed to be interested in the proposed resolution.

The Board recommends the Special Resolution set forth in **item No.7** of the Notice for approval of the Members.

Item No. 8:

The Earnings per Share (EPS) for the year ended 31.03.2025 is Rs 1.81 as against Rs. 0.55 in the previous year ended 31.03.2024.

OPERATIONS AND OVERVIEW:

The Company operates a 5 MW solar power project at Gujarat Solar Park, Charanka Village, Santalpur Taluq, Patan District, Gujarat. In addition, its subsidiaries, Surana Solar Systems Pvt. Ltd. (SSSPL), Bhagyanagar Green Energy Pvt. Ltd. (BGEPL), and Aryavaan Renewable Energy Pvt. Ltd. (AREPL), each manage 5 MW solar projects strategically located across India. SSSPL's plant is situated at Shankapur Village, Shankarampet Mandal, Medak District, Telangana, and has renewed its Power Purchase Agreement (PPA) with Bhagyanagar India Limited for a further 10 years from September 2019. BGEPL operates in Peddaumanthal Village, Pudur Mandal, Ranga Reddy District, Telangana, under a long-term PPA with TSSPDCL, also effective from September 2019. Meanwhile, AREPL runs its project in Barhara Village, Sarila Tehsil, Hamirpur District, Uttar Pradesh, backed by a long-term PPA with Uttar Pradesh Power Corporation Ltd. These projects reflect the Group's strong and growing presence in India's renewable energy sector, supported by stable, long-term power agreements.

As part of its strategic review of underperforming assets, the Company sold its 5 MW Solar Power Plant and land situated at Municipally, Telangana, to an independent third-party buyer through an asset sale, following Shareholders approval through postal ballot on 29.01.2025. The sale, valued at ₹33.30 crores, was driven by the plant's continued financial unviability due to high regulatory charges.

MANAGEMENT DISCUSSION & ANALYSIS

Surana Telecom and Power Limited was incorporated as a Private Limited Company on 14.08.1989 as Surana Petro Products Private Limited and was engaged in the business of manufacturing of Petro Products such as Petroleum Jelly and Telecom products such as Jointing Kits. Thereafter, the Company was converted into a Public Limited Company on 09.07.1993. In 1994, the Company ventured into the Telecom sector with the production of Optic Fibre Cables and consequently, name of the Company was changed to Surana Telecom Limited on 05.08.1994. In 2007 the Company diversified into the power sector with the manufacturing of low tension and high-tension power cables and setting up of 1.25 MW wind power generation facility. In order to reflect the diversity, the name of the Company was again changed to “Surana Telecom and Power Limited” on 11.10.2007. In 2008, taking cue from the increasing recognition for non-conventional energy and anticipating demand primarily in the field of Solar Photovoltaic cells, the company ventured into manufacturing of Solar Modules and other Solar photovoltaic products.

During the year 2009-2010, a Scheme of arrangement was entered by the Company with M/s Surana Ventures Limited which was sanctioned by Hon'ble High Court of Andhra Pradesh on 28.06.2010 and became effective from 28.07.2010, pursuant to which the “Solar Undertaking” was merged with M/s Surana Ventures Limited (the name has been changed to Surana Solar Ltd). The Company is into the business of generation of solar energy. In the year 2011-12, the Company had set up 5 MW Solar Power Project in Gujarat, with this it has successfully ventured into Solar Power Generation. Currently, the total installed capacity is 25 MW owned by the Company and its subsidiaries in the states of Gujarat, Uttar Pradesh and Telangana.

In the current year, the Company has actively participated in solar tenders under Component C of the PM-KUSUM Scheme, reinforcing its commitment to promoting decentralised solar energy solutions for the agricultural sector. Additionally, as part of its strategic diversification initiatives, the Company is exploring opportunities in the rapidly growing Battery Energy Storage Systems (BESS) sector, aligning with the future demands of sustainable energy and grid reliability

A) INDUSTRY STRUCTURE AND DEVELOPMENTS:

SOLAR ENERGY:

In 2025, the global solar energy sector continues its exceptional growth trajectory, adding over 585 GW of renewable capacity in the previous year—over 80% of which came from solar PV. Solar now contributes more than 8% of global electricity generation, surpassing nuclear output in several regions and emerging as a core pillar of the global energy mix. While strong momentum aligns with the global pledge to triple renewable capacity by 2030, emerging challenges like policy uncertainty, infrastructure bottlenecks, and market saturation in mature economies have opened up fresh opportunities in newer, faster-growing markets.

India stands out as one of the most dynamic among these markets. Having surpassed 100 GW of installed solar capacity in early 2025, the country is rapidly scaling its renewable infrastructure with support from government initiatives like the PLI scheme and the PM Surya Ghar Yojana. In FY 2025 alone, India added nearly 24 GW of solar capacity—a 58% increase year-over-year—driven by utility-scale, rooftop, and off-grid segments. With projections of 40–45 GW annual additions by FY 2027, India offers a rare combination of scale, policy support, and unmet demand, positioning it as a key growth engine in the global solar landscape.

B) OPPORTUNITIES AND THREATS:

The solar industry in India faces several significant challenges. Continued reliance on imported raw materials, particularly from China, exposes the sector to supply chain disruptions and price volatility. Additionally, infrastructure constraints and regulatory delays have resulted in numerous stranded renewable projects, slowing capacity growth. Financial barriers, including high initial investment costs and the lack of a robust solar panel recycling policy, further threaten the industry's sustainable development.

Despite these hurdles, the industry is poised for strong growth, driven by proactive government initiatives such as the Production-Linked Incentive (PLI) Scheme and widespread promotion of rooftop solar installations. Technological advancements, including more efficient solar panels and integrated energy storage solutions, are improving affordability and system reliability. Moreover, India's growing presence in the global solar supply chain and increasing solar module exports position the country as an emerging international leader, offering significant opportunities for investment and innovation.

C) SEGMENT-WISE OR PRODUCT WISE PERFORMANCE:

During the year under review, the Company has recorded a total income of Rs. 4418.57 Lakhs and made a net profit of Rs. 2,453.94 Lakhs against total income of Rs. 2382.74 Lakhs and net profit of Rs. 742.38 Lakhs in the previous financial year 2023-24.

The following segment wise turnover in percentage wise during the financial year ended 31.03.2025:

Renewable Energy(Solar & Wind)	59.71%
Trading & Others	40.29%

D) BUSINESS OUTLOOK:

Solar power in India at current levels is cheaper than electricity generated through coal, natural gas or other fossil fuel options. Support from various central and states government for solar power industry is continuously increasing. The Government of India has set an ambitious target of achieving 500 GW of renewable energy capacity by 2030 which includes 280 GW of solar power. With this the market players in India now have enough incentive to move to clean sources of energy. In view of the huge demand for solar power and company having considerable resources in this line of activity, the Company expects to get benefits from the proposed huge installation of solar power capacity.

E) RISKS AND CONCERNS:

Your company being in the business of generation of solar energy have risks with land acquisition, tariff bidding, government policies etc. The Company has sufficient risk management policies in place that act as an effective tool in minimising the various risks that the businesses are exposed to during the course of their day-to-day operations as well as in their strategic actions.

F) INTERNAL CONTROL SYSTEM AND ITS ADEQUACY:

The Company has adequate Internal Control Systems and Procedures with regard to purchase of Stores, Raw Materials including Components, Plant and Machinery, equipment, sale of goods and other assets. The company has clearly defined roles and responsibilities for all managerial positions and all operating parameters are monitored and controlled. The Company designs and maintains accounting and internal control systems to provide reasonable assurance at reasonable cost that assets are safeguarded against loss from unauthorized use or disposition, and that the financial records are reliable for preparing financial statements and maintaining accountability for assets.

The company has an Internal Audit System commensurate with its size and nature of business. M/s Sekhar & Co., a firm of Chartered Accountants, are acting as Internal Auditors of the Company. Periodic reports of Internal Auditors are reviewed in the meeting of the Audit Committee of the Board. Compliance with laws and regulations is also ensured and confirmed by the Internal Auditors of the company. Standard operating procedures and guidelines are issued from time to time to support best practices for internal control.

REPORT ON CORPORATE GOVERNANCE

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:

Commitment to good corporate governance practices serves as the foundation for long term success of Surana Telecom and Power Limited ('STPL' or 'the Company'). STPL views corporate governance more as way of business life than a mere legal obligation. Corporate Governance has been the hallmark of the Company's identity long before the term became a part of the corporate lexicon. Integrity, transparency, fairness, accountability and compliance with the law are embedded in the Company's business practices, ensuring ethical and responsible leadership at the Board as well as at the Management level. Your Company strongly believes that the solid Corporate Governance practices, which have evolved from the dynamic culture and positive thought processes, have been key enablers in infusing stakeholders' trust and confidence, attracting and retaining financial and human capital, and in meeting societal aspirations. The Company has rigorously abided by the core principles of Corporate Governance, which have been the bedrock of its two-fold governance, with the Board of Directors and the Committees of the Board at the apex level and the management structure at the operational level. The Board and its Committees guide, support and complement the management team, which in turn assumes accountability and endeavours to achieve the set objectives and enhances stakeholder value.

Independent Auditors' Report on compliance with the conditions of Corporate Governance as per provisions of Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

To
The Members of
Surana Telecom and Power Limited,
Plot No. 214, 215/A, Phase-II IDA,
Cherlapally Hyderabad - 500051.

1. The Corporate Governance Report prepared by Surana Telecom and Power Limited (hereinafter the "Company"), contains details as required by the provisions of Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") ('Applicable Criteria') with respect to Corporate Governance for the year ended 31st March, 2025. This report is required by the Company for annual submission to the Stock Exchange and to be sent to the Shareholders of the Company.

MANAGEMENT'S RESPONSIBILITY

2. The preparation of the Corporate Governance Report is the responsibility of the management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.
3. The management along with the Board of Directors of the Company are also responsible for ensuring that the company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

AUDITORS' RESPONSIBILITY

4. Pursuant to the requirements of the Listing Regulations, our responsibility is to express a reasonable assurance in the form of an opinion whether the Company has complied with the specific requirements of the Listing Regulations referred to in paragraph 3 above.
5. We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised) and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes (Revised) requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
6. We have complied with the relevant applicable requirements of the Standard on quality Control (SQC) 1, Quality Control for firms that perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
7. The procedures selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Governance Report with the applicable criteria. The procedures include, but not limited to, verification of secretarial records and financial information of the Company and obtained necessary representations and declarations from directors including independent directors of the Company.
8. The procedures also include examining evidence supporting the particulars in the Corporate Governance Report on attest basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

OPINION

9. Based on the procedures performed by us as referred in paragraph 7 and 8 above and according to the information and explanations given to us, we are of the opinion that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, as applicable for the year ended 31st March, 2025, referred to in paragraph 1 above.

OTHER MATTERS AND RESTRICTION ON USE

10. This Certificate is neither an assurance as to the future viability of the company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

This Certificate is addressed to and provided to the members of the Company solely for the Purpose of enabling it to comply with its obligations under the Listing Regulations and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. Standalone Financial Statements

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SURANA TELECOM AND POWER LIMITED

Report on the Audit of Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of SURANA TELECOM AND POWER LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Cash Flow Statement and the statement of change in Equity for the year then ended and notes to the Standalone Financial Statements, including a summary of the significant accounting policies and other explanatory information ("The Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 as amended ('the Act') in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the company as at March 31, 2025, and its profit, of total comprehensive income (comprising of profit and other comprehensive income), standalone changes in equity and its standalone cash flows for the year ended .

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our Audit of the Standalone Financial Statements under the provision of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Key Audit Matters

1. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context:

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p>1. Accuracy and completeness of revenue recognized. The Company reported revenue of Rs.821.63 Lakhs from sale of solar power. The application of revenue recognition accounting standards is complex and involves a number of key judgments and estimates. Due to the estimates and judgment and complexity involved in the application of the revenue recognition accounting standards, we have considered this matter as a key audit matter. The Company's accounting policies relating to revenue recognition are presented in note 4.12 to the financial statements.</p>	<p>We addressed the Key Audit Matter as follows :-</p> <ol style="list-style-type: none"> 1. As part of our audit, we understood the Company's policies and processes, control mechanisms and methods in relation to the revenue recognition and evaluated the design and operating effectiveness of the financial controls from the above through our test of control procedures. 2. Assessed the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof. 3. Review the company's judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time. 4. Tested a sample of sales transactions for compliance with the Company's accounting Principles to assess the completeness and accuracy of revenue recorded. 5. We evaluated the management's process to recognize revenue over a period of time, total cost estimates, status of the projects and re-calculated the arithmetic accuracy of the same. 6. Evaluated management assessment of the impact on revenue recognition. 7. We examined contracts with exceptions including contracts with low or negative margins, loss making contracts, etc to determine the level of provisioning. 8. Our tests of detail focused on transactions occurring within proximity of the year end and obtaining evidence to support the appropriate timing of revenue recognition, based on terms and conditions set out in sales contracts and delivery documents. We considered the appropriateness and accuracy of any cut-off adjustments.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
	9. Performed analytical procedures over revenue and receivables. Compared revenue with historical trends and where appropriate, conducted further enquiries and testing. 10. Traced disclosure information to accounting records and other supporting documentation. 11. Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115. 12. Our Observation: Based on the audit procedures performed we did not identify any material exceptions in the revenue recognition.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprise the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the annual report, If we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Management Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the companies (Indian Accounting Standards) Rule, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Financial Statements.

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure B" statement on the matters Specified in paragraphs 3 and 4 of the Order.
- 2) As required by section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the statement of Profit and Loss including the statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

ANNEXURE “A “TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SURANA TELECOM AND POWER LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Financial Statements of **SURANA TELECOM AND POWER LIMITED** (“the Company”) as of 31 March, 2025 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by Institute of Chartered Accountants of India.

‘ANNEXURE ‘B’ TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SURANA TELECOM AND POWER LIMITED of even date)

To the best of our information and according to the explanations provided to us by the company and the books of account and records examined by us in the normal course of audit, we state that:

- (i) In respect of the company’s Property, Plant and Equipment and intangible assets-
- a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
 - B) The Company has not capitalized any intangible assets in the books of the Company and accordingly, the requirement to report on clause 3(i) (a) (B) of the Order is not applicable to the Company.
 - b) The Property, Plant and Equipment have been physically verified during the year by the management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the Property, Plant and Equipment at reasonable intervals. According to the information and explanation given to us, no material discrepancies have been noticed on such verification.
 - c) According to the information and explanations given to us and on the basis of our examination of the records of the company, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) included in Property, Plant and Equipment are held in the name of company.
 - d) The Company has not revalued any of its Property, Plant and Equipment (including right of use assets) or intangible assets during the year ended March 31, 2025. Accordingly the reporting under clause 3(i)(d) of the order is not applicable to the company.
 - e) Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition Benami Transactions Act, 1988 (as amended in 2016) (formerly the benami transactions (prohibition) Act, 1988 (45 of 1988) and rules made thereunder and therefore the question of our commenting on whether the company appropriately disclosed the details in its standalone financial statements does not arise.
- (ii) **In the respect of matters specified in clause (ii) of paragraphs 3 the order :**
- (a) The physical verification of inventory (excluding stocks with third parties) has been conducted at reasonable intervals by the management during the year and, in our opinion the coverage and procedure of such verification by management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. There are no discrepancies noticed on physical verification of inventory as compared to book records were 10% or more in aggregate for each class of inventory.
 - (b) As disclosed in notes to the standalone financial statements, the Company has been sanctioned working capital limits in excess of Rs.5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly statement returns with such banks which are in agreement with the books of accounts of the Company.
- (iii) **In the respect of matters specified in clause (iii) of paragraph 3 the order:**
- a) On the basis of examination of records of the Company, during the year the Company has granted loans to its related body corporates, as stated herein.

Particulars	Loan ₹ (in lakhs)
Aggregate amount granted/provided during the year	
- Subsidiaries	31.20
- Related Body Corporates	5434.71
Balance outstanding as at balance sheet date in respect of above cases	
- Subsidiaries	1306.65
- Related Body Corporates	5801.94

Based on the examination of records of the Company and according to the information and explanation given to us during the year, the Company has not provided guarantee or provided security or granted any advances in the nature of loans, secured or unsecured to any Company, Limited Liability Partnerships, Firms or any other parties except mentioned above.

- b) In our opinion, the investments made and the terms and conditions of the grant of loans, during the year, prima facie, not prejudicial to the Company's interest.
 - c) Based on the records examined by us and information and explanation given to us, the schedule of repayment of principal and interest has been stipulated and the repayment/ receipts have been regular.
 - d) There are no amounts of loan and advances in the nature of loans granted to companies which are overdue for more than ninety days.
 - e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to the same parties.
 - f) The Company has not granted any security or guarantees in the nature of guarantees, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the order is not applicable to the company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans and investments made.
- (v) In our opinion and according to the information and explanations given to us, the Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3 (v) of the Order are not applicable to the Company.
- (vi) We have broadly reviewed the cost records maintained by the company prescribed by the Central Government of India under section 148(1) of the Act and are of the opinion that prima facie the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- a) According to the information and explanations given to us and based on the records of the company examined by us, the company is generally regular in depositing the undisputed statutory dues, including Provident Fund, , Employees' State Insurance, Income-tax, Sales-tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty and other statutory dues, as applicable, with the appropriate authorities in India;
 - b) According to the information and explanations given to us and based on the records of the company examined by us, no undisputed amounts payable in respect of Provident Fund, Income Tax, Sales Tax, Wealth Tax and other material statutory dues for a period of more than six months from the date they become payable, except the following disputed statutory liabilities have not been deposited in view of pending Appeals.

Name of Statue	Nature of dues	(Amount involved in dispute /Amount not paid)	Period to which it relates	Forum where dispute is pending
Central Excise Act, 1944,	Excise Duty	22.74	2013	CESTAT Hyderabad III

- (viii) According to the records of the company examined by us and as per the information and explanation given to us, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- (ix) (a) According to the records of the company examined by us and as per the information and explanations given to us, the company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any financial institution or banks or lender.
- (b) According to the records of the company examined by us and as per the information and explanations given to us, The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) According to the records of the company examined by us and as per the information and explanations given to us, the term loans were applied for the purpose for which the loans were obtained.
- (d) According to the records of the company examined by us and as per the information and explanations given to us, on an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.
- (e) According to the records of the company examined by us and as per the information and explanations given to us, on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associate companies.

- (f) According to the records of the company examined by us and as per the information and explanations given to us, the Company has not raised loans during the year on the pledge of securities held in its subsidiaries or associate companies. Hence, the requirement to report on clause (ix) (f) of the Order is not applicable to the Company.
- (x) (a) According to the information and explanations given to us and based on our examination of the records of the company, the Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x) (a) of the Order is not applicable.
- (b) According to the information and explanations given to us and based on our examination of the records of the company, during the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year under audit and hence reporting under clause 3(x) (b) of the Order is not applicable.
- (xi) (a) According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (b) According to the information and explanations given to us, during the year and upto the date of this audit report, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by the secretarial auditor or by us in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) According to the information and explanations given to us, during the year there are no whistle blower complaints received by the company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the company, transactions with the related parties, are in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable and details of such transactions have been disclosed in the Financial Statements as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors. Hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi) (a), (b) and (c) of the Order is not applicable.
- (b) According to the information and explanations given to us and based on our examination of the records of the company, the Company has not conducted any Non-Banking Financial or Housing Finance activities without obtained a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- (c) According to the information and explanations given to us and based on our examination of the records of the company, the Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) (c) of the Order is not applicable to the Company.
- (d) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi) (d) of the Order is not applicable.
- (xvii) In our opinion, there is no cash loss in the financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- (xx) (a) According to the information and explanations given to us and based on our examination of the records of the company, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII to the companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act.
- (b) In our opinion, there are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act.
- (xxi) The reporting under Clause 3(xx) of the Order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES, JUDGEMENTS & KEY ESTIMATES

1. CORPORATE OVERVIEW:

Surana Telecom and Power Limited ("the Company") is a Public Limited Company registered under the Companies Act, 1956. It is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). It was incorporated on 14.08.1989 having its registered office at Plot No. 214, 215/A, Phase-II IDA, Cherlapally Hyderabad 500051. The company's CIN No. is L23209TG1989PLC010336. The Company is into the business of manufacturing/Trading of Solar related Products, Generation of Solar Power and Wind Power.

The standalone financial statements of the Company have been approved by the Board of Directors in their meeting held on May 20, 2025.

2. BASIS OF PREPARATION:

a) Statement of Compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (amended), guidelines issued by the Securities and Exchange Board of India (SEBI), and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statement, other relevant provisions of the Act and other accounting principles generally accepted in India.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Basis of Measurement

The standalone financial statements of the Company have been prepared on historical cost basis except for the following assets and liabilities which have been measured at fair value:

- i) Certain financial assets & liabilities (including derivative instruments)
- ii) Defined Benefit Plans as per actuarial valuation
- iii) Share based Payments

c) Functional and Presentation Currency

The standalone financial statements have been presented in Indian Rupees (INR), which is also the Company's functional currency. All financial information presented in INR has been rounded off to the nearest lakhs as per the requirements of Schedule III, unless otherwise stated.

d) Use of Assumptions, Judgments and Estimates

The key assumption, judgment and estimation at the reporting date, that have significant risk causing the material adjustment to the carrying amounts of assets and liabilities within the next financial year, are describe below. The company based its assumption; judgment and estimation on parameters available on the standalone financial statements were prepared. Existing circumstances and assumption about future development, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumption when they occur.

i) Revenue

The application of revenue recognition accounting standards is complex and involves a number of key judgements and estimates. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. The Company exercises judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time.

ii) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An impairment loss is recognized as an expense in the standalone statement of profit and loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

iii) Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present

value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

v) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vi) Share-based payments

The Company measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

vii) Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. No expense is recognised for awards that do not ultimately vest because service conditions have not been met. When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

viii) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

ix) Classification of Leases

The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of

exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

x) Restoration, rehabilitation and decommissioning

Estimation of restoration/ rehabilitation/ decommissioning costs requires interpretation of scientific and legal data, in addition to assumptions about probability of future costs.

xi) Provisions and Contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

3. Classification of Assets and Liabilities into Current/ Non-Current

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013, as given below.

The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- i) Expected to be realized or intended to sold or consumed in normal operating cycle;
- ii) Held primarily for the purpose of trading;
- iii) Expected to be realized within twelve months after the reporting period; or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

Similarly, a liability is current if:

- i) It is expected to be settled in normal operating cycle;
- ii) It is held primarily for the purpose of trading;
- iii) It is due to be settled within twelve months after the reporting period; or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

4. SIGNIFICANT ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

A summary of the significant accounting policies applied in the preparation of the standalone financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the standalone financial statements, unless otherwise stated.

1. Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory arrived on weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Stores, spares and consumables

Stores spares, packing material and all consumables' items held for use in the production of inventories are charged to profit & loss account as and when purchased.

Provision is recognized for damaged, defective or obsolete stocks where necessary.

2. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, Cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

3. Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

4. Income Tax

Income Tax comprises current and deferred tax.

a) Current Tax

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the

applicable tax rates and the provisions of the Income-tax Act, 1961. Current income tax is recognized in the standalone statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

b) Deferred Tax

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognised directly in equity or OCI is recognised in equity or OCI and not in the standalone statement of profit and loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable.

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of credit to standalone statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

5. Property, Plant and Equipment

a) Recognition and Measurement

i) Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).

- ii) Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.
- iii) In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.
- iv) For transition to IND AS, the company has revalued land at fair value as deemed cost and considered other assets at Ind AS Cost.
- v) Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset is recognized in the standalone statement of profit and loss.
- vi) Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.
- vii) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.
- viii) The Company identifies and determines cost of asset significant to the total cost of the asset having useful life that is materially different from that of the remaining life.

- ix) Research and development costs that are in nature of tangible/ intangible assets and are expected to generate probable future economic benefits are capitalised and classified under tangible/intangible assets and depreciated on the same basis as other fixed assets. Revenue expenditure on research and development is charged to the statement of profit and loss in the year in which it is incurred.

b) Depreciation and Amortization

- i) Depreciation on property, plant and equipment is provided under Straight Line Method over the useful lives of assets prescribed by Schedule II of the Companies Act, 2013. Depreciation in change in the value of fixed assets due to exchange rate fluctuation has been provided prospectively over the residual life of the respective assets.
- ii) Depreciation in respect of property, plant and equipment added / disposed off during the year is provided on pro-rata basis, with reference to the date of addition/disposal.

6. Intangible Assets

- i) Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss, if any.
- ii) Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss.
- iii) Intangible assets are amortised on straight line basis over its estimated useful life of 5 years.

7. Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-

generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss.

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired.

8. Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

9. Investment in Joint-Venture

Investment in Joint-venture is measured at cost less impairment loss, if any.

The joint arrangement is structured through a separate vehicle and the legal form of the separate vehicle, the terms of the contractual arrangement and, when relevant, any other facts and circumstances gives the Company rights to the net assets of the arrangement (i.e. the arrangement is a joint venture). The activities of the joint venture are primarily aimed to provide the third parties with an output and the parties to the joint venture will not have rights to substantially all the economic benefits of the assets of the arrangement.

10. Investment in subsidiaries and associates

Investments in subsidiaries and associates are recognised at cost as per IND AS 27. Except where investments accounted for at cost shall be accounted for in accordance with IND AS 105, Non-current Assets held for Sale and Discontinued Operations, when they are classified as held for sale.

11. Leases

a) The Company as lessor

Leases for which the Company is a lessor is classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in

negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

b) The Company as lessee

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed. Contingent and variable rentals are recognized as expense in the periods in which they are incurred.

c) Lease Liability

The lease payments that are not paid at the commencement date are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments) payable during the lease term and under reasonably certain extension options, less any lease incentives;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the Balance Sheet.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Company re-measures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.

d) Right of Use (ROU) Assets

The ROU assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under Ind AS 37- Provisions, Contingent Liabilities and Contingent Assets. The costs are included in the related right-of-use asset.

ROU assets are depreciated over the shorter period of the lease term and useful life of the underlying asset. If the company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. The depreciation starts at the commencement date of the lease.

The ROU assets are not presented as a separate line in the Balance Sheet but presented below similar owned assets as a separate line in the PPE note under "Notes forming part of the Financial Statement".

The Company applies Ind AS 36- Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as per its accounting policy on 'property, plant and equipment'.

As a practical expedient, Ind AS 116 permits a lessee not to separate non-lease components when bifurcation of the payments is not available between the two components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has used this practical expedient.

Extension and termination options are included in many of the leases. In determining the lease term, the management considers all facts and

circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option.

12. Revenue Recognition

Revenue represents amount receivable from sale of solar modules, sale of solar power and lease rental, stated net of discounts.

Ind AS 115 "Revenue from Contracts with Customers" introduced one single new model for recognition of revenue which includes a 5-step approach and detailed guidelines. Among other, such guidelines are on allocation of revenue to performance obligations within multi-element arrangements, measurement and recognition of variable consideration and the timing of revenue recognition.

The Company considers the terms of the contract in determining the transaction price. The transaction price is based upon the amount the entity expects to be entitled to in exchange for transferring of promised goods and services to the customer after deducting incentive programs, included but not limited to discounts, volume rebates etc.

a) Revenue from sale of goods

Revenue from the sale of solar modules is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. Company recognises revenue at a point in time, when control is transferred to the customer, and the consideration agreed is expected to be received. Control is generally deemed to be transferred upon delivery of the products in accordance with the agreed delivery plan.

In case of related party transactions where related party meets the definition of customer (i.e. a party that has contracted with the Company to obtain goods or services that are an output of the Company's ordinary activity in exchange for consideration) and the transactions are within the scope of the standard then the revenue is recognised based on the principles of IND AS 115.

Revenues for services are recognised when the service rendered has been completed.

- **Revenue from services**

Revenue from services mainly consists of the following;

- **Income from Lease Rent**

Revenue from services, which mainly consists of lease rentals from letting of space, is recognised over time on satisfying performance obligations as per the terms of agreement, that is, by reference to the period in which services are being rendered. Revenue from services, if any, involving single performance obligation is recognised at a point in time

- **Sale of energy**

Revenue from operations comprises of sale of power. Revenue is recognized at an

amount that reflects the consideration for which the Company expects to be entitled in exchange for transfer of power (goods / service) to the customer. Revenue from sale of power is accounted for in accordance with tariff provided in Power Purchase Agreement (PPA) read with the regulations of respective regulatory authorities and no significant uncertainty as to the measurability or collectability exist. There is no impact on the adoption of the standard in the financial statement as the Company's revenue primarily comprised of revenue from sale of power and the recognition criteria of this revenue stream is largely unchanged by Ind AS 115.

- **Contract Assets**

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Unbilled receivables where further subsequent performance obligation is pending are classified as contract assets when the company does not have unconditional right to receive cash as per contractual terms. Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

- **Impairment of Contract asset**

The Company assesses a contract asset for impairment in accordance with Ind AS 109. An impairment of a contract asset is measured, presented and disclosed on the same basis as a financial asset that is within the scope of Ind AS 109.

- **Contract Liability**

Contract Liability is recognised when there are billings in excess of revenues and it also includes consideration received from customers for whom the company has pending obligation to transfer goods or services.

The billing schedules agreed with customers include periodic performance-based payments and / or milestone-based progress payments. Invoices are payable within contractually agreed credit period.

- **Modification in contract**

Contracts are subject to modification to account for changes in contract specification

and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

b) Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that assets' net carrying amount on initial recognition.

13. Retirement and other employee benefits

a) Short Term Employee Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

b) Other Long Term Employee Benefits

The liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value (determined by actuarial valuation using the projected unit credit method) of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period and recognised in books of accounts. The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Re-measurements as the result of experience adjustment and changes in actuarial assumptions are recognized in standalone statement of profit and loss.

c) Post-Employment Benefits

The Company operates the following post-employment schemes:

i) Defined Benefit Plan

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated by

estimating the amount of future benefit that employees have earned in the current and prior periods.

The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Past service cost is recognised in the standalone statement of profit and loss in the period of a plan amendment. The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income (OCI) in the period in which they occur. Re-measurement recognised in OCI is reflected immediately in retained earnings and will not be reclassified to standalone statement of profit and loss.

ii) Defined Contribution Plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation other than the contribution payable to the Provident fund. Contribution payable under the provident fund is recognised as expenditure in the standalone statement of profit and loss and/or carried to Construction work-in-progress when an employee renders the related service.

14. Government Grants

Government grants are recognized at their fair values when there is reasonable assurance that the grants will be received and the Company will comply with all the attached conditions.

a) Government grants are recognised in the statement of profit or loss on a systematic basis over the periods in which the Company recognises the related costs for which the grants are intended to compensate.

b) Grants related to acquisition/ construction of property, plant and equipment are recognised as deferred revenue in the Balance Sheet and transferred to the statement of profit or loss on a systematic and rational basis over the useful lives of the related asset.

15. Foreign Currency Transactions

- a) The functional currency and presentation currency of the company is Indian Rupee (INR).
- b) Transactions in currencies other than the company's functional currency are recorded on initial recognition using the exchange rate at the transaction date. At each balance sheet date, foreign currency monetary items are reported using the closing rate.
- c) Non- monetary items that are measured in terms of historical cost in foreign currency are not retranslated. Exchange difference that arise on settlement of monetary items or on reporting of monetary items at each Balance sheet date at the closing spot rate are recognised in profit or loss in the period in which they arise except for:
 - i) exchange difference on foreign currency borrowings related to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings; and
 - ii) exchange differences on transactions entered into in order to hedge certain foreign currency risks.
 - iii) exchange differences on monetary items receivable from or payable to a foreign operation for

Which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to the Statement of Profit and Loss on repayment of the monetary items.

According to Appendix B of Ind AS 21 "Foreign currency transactions and advance consideration", purchase or sale transactions must be translated at the exchange rate prevailing on the date the asset or liability is initially recognized. In practice, this is usually the date on which the advance payment is paid or received. In the case of multiple advances, the exchange rate must be determined for each payment and collection transaction

16. Borrowing Cost

Borrowing cost include interest expense calculated using the Effective interest method, finance charges in respect of assets acquired on finance lease and exchange difference arising on foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

Borrowing costs (including other ancillary borrowing cost) directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale. The Company considers a period of twelve months or more as a substantial period of time.

Transaction costs in respect of long-term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the standalone statement of profit and loss in the period in which they are incurred.

17. Earnings per Share

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equities shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

18. Exceptional Item

Exceptional items include income or expense that are considered to be part of ordinary activities, however are of such significance and nature that separate disclosure enables the user of the financial statements to understand the impact in a more meaningful manner. Exceptional items are identified by virtue of either their size or nature so as to facilitate comparison with prior periods and to assess underlying trends in the financial performance of the Company.

19. Financial Guarantee Contract

Financial guarantee contract provided to the lenders of the Company by its Parent Company is measured at their fair values and benefit of such financial guarantee is recognised to equity as a capital **contribution** from the parent.

20. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in standalone statement of profit and loss.

a) Financial Assets

i) Classification and Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at Amortized Cost
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI)
- Measured at Fair Value Through Profit or Loss (FVTPL) and
- Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

- **Measured at Amortized Cost**
The Financial assets are subsequently measured at the amortized cost if both the following conditions are met:
 - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as FVTPL. Interest income is recognised in the standalone statement of profit and loss.

- **Measured at Fair Value Through Other Comprehensive Income (FVTOCI)**

The financial assets are measured at the FVTOCI if both the following conditions are met:

- The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and
- The asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on re-measurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses.

Interest calculated using the effective interest method is recognized in the standalone statement of profit and loss in investment income.

- **Measured at Fair Value Through Profit or Loss (FVTPL)**

Financial assets are measured at fair value through profit or Loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. Gains or losses arising on re-measurement are recognised in the standalone statement of profit and loss. The net gains or loss recognised in standalone statement of profit and loss incorporates any dividend or interest earned on the financial assets and is included in the "Other income" line item.

- **Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI)**

All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable. In case the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

ii) **Derecognition**

The Company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

iii) **Impairment of Financial Assets**

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rate to determine impairment loss on the portfolio of trade receivables. At all reporting date these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

For other assets, the Company uses 12-month ELC to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ELC is used.

iv) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost, the exchange differences are recognised in the standalone statement of profit and loss.

b) Financial Liabilities and equity instruments

Debts and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of equity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial Liabilities

i) Recognition and Initial Measurement

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

ii) Subsequent Measurement

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if

it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

iii) Financial Guarantee Contracts

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument.

Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

iv) De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

v) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are included in standalone statement of profit and loss. The fair value of the financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period.

vi) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

c) Derivative financial instruments

The Company uses derivative financial instruments such as forward, swap, options etc. to hedge against interest rate and foreign exchange rate risks, including foreign exchange fluctuation related to highly probable forecast sale. The realized gain / loss in respect of hedged foreign exchange contracts which has expired / unwinded during the year are recognized in the standalone statement of profit and loss and included in other operating revenue / other expense as the case may be. However, in respect of foreign exchange forward contracts period of which extends beyond the balance sheet date, the fair value of outstanding derivative contracts is marked to market and resultant net loss/gain is accounted in the standalone statement of profit and loss. Company does not hold derivative financial instruments for speculative purposes.

d) Derivatives and Hedge Accounting

Derivatives are initially recognised at fair value and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gains / losses are recognised in Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of recognition in profit or loss / inclusion in the initial cost of non-financial asset depends on the nature of the hedging relationship and the nature of the hedged item. The Company complies with the principles of hedge accounting where derivative contracts are designated as hedge instruments. At the inception of the hedge relationship, the Company documents the relationship between the hedge instrument and the hedged item, along with the risk management objectives and its strategy for undertaking hedge transaction, which is a cash flow hedge.

e) Cash Flow Hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income and accumulated as 'Cash Flow Hedging Reserve'. The gains / losses relating to the ineffective portion are recognised in the Statement of Profit and Loss. Amounts previously recognised and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non- financial asset, such gains / losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non- financial asset. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no

longer qualifies for hedge accounting. Any gains / losses recognised in other comprehensive income and accumulated in equity at that time remain in equity and are reclassified when the underlying transaction is ultimately recognised. When an underlying transaction is no longer expected to occur, the gains / losses accumulated in equity are recognised immediately in the Statement of Profit and Loss.

21. Provisions, Contingent Liabilities and Contingent Assets

a) Provisions

i) Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

ii) Decommissioning Liability

Restoration/ Rehabilitation/ Decommissioning cost are provided for in the accounting period when the obligation arises based on the NPV of the estimated future cost of restoration to be incurred. It includes the dismantling and demolition of infrastructure and removal of residual material. This provision is based on all regulatory requirements and related estimated cost based on best available information.

iii) Onerous Contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

b) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

c) Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

22. Operating Segment

The identification of operating segment is consistent with performance assessment and resource allocation by the chief operating decision maker. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the other components of the Company and for which discrete financial information is available. All operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

23. Employee Share based payment

Equity-settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date. The fair value of option at the grant date is expensed over the vesting period with a corresponding increase in equity as "Employee Stock Options Account". In case of forfeiture of unvested option, portion of amount already expensed is reversed. In a situation where the vested option forfeited or expires unexercised, the related balance standing to the credit of the "Employee Stock Options Account" are transferred to the "General Reserve". When the options are exercised, the Company issues new equity shares of the Company of ₹1/- each fully paid-up. The proceeds received and the related balance standing to credit of the Employee Stock Options Account, are credited to share capital (nominal value) and Securities Premium Account.

24. Measurement of Fair Values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

25. Non-Current Assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through as sale rather than through continuing use of the assets and actions required to complete such sale. Indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification. Non-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortized.

26. Events after Reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

27. Research and Development

Expenditure on research is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

6. Investments (Non Current)

Total Non-Current Liabilities	963.32	697.12	963.32	697.12

The carrying amount of financial assets and financial liabilities measured at amortized cost in the financial statements are a reasonable approximation of their fair values since the company does not anticipate that the carrying amount would be significantly different from the values that would eventually be received or settled.

48. financial risk management objectives and policies

The Company's principal financial liabilities other than derivatives comprise long-term and short-term borrowings, capital creditors and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets other than derivatives include trade and other receivables, cash and cash equivalents and deposits that derive directly from its operation.

The Company is exposed to market, credit, liquidity and regulatory risks. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below :

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: commodity risk, interest rate risk and foreign currency risk.

(i) Commodity Price Risk

Company is affected by the price volatility of certain commodities, primarily, Solar Module. Its operating activities require the on-going purchase of these materials. The company has arrangement to pass-through the increase/decrease in this material price through price variance clause in majority of the contract.

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rate relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). Further, the Company has foreign currency risk on import of input materials, capital commitment and also borrows funds in foreign currency for its business. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies, for the remaining exposures to foreign exchange risks, the Company adopts a policy of selective hedging based on risk perception of management using derivative, whenever required, to mitigate or eliminate the risks.

(iii) Interest Rate risk

The Company is exposed to interest rate risk on financial liabilities such as borrowings, both short-term and long-term. It maintains a balance of fixed and floating interest rate borrowings and the proportion is determined by current market interest rates, projected debt servicing capability and view on future interest rates.

B. Credit Risk

Financial Asset of the Company include trade receivables, employee advances and bank deposits which represents Company's maximum exposure to the credit risk.

With respect to credit exposure from customers, the Company has a procedure in place aiming to minimise collection losses. Credit Control team assesses the credit quality of the customers, their financial position, past experience

in payment and other relevant factors. The Company's exposure to credit risk is influence mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including default risk associated with the industry and country in which customers operate. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. With respect to other financial risk via loan and advances, deposit with government, the credit risk is insignificant since the loans and advances are given to its employees only and deposits are held with reputable banks. The credit quality of the financial assets is satisfactory, taking into account the allowance for credit losses.

C. Regulatory Risks

he Company performance may be impacted due to change in Regulatory Environment. The Company is closely monitoring the regulatory developments and risks thereof and proactively implementing course correction for proper compliance commensurate with new regulatory requirements.

D. Liquidity Risk

The company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans

The table below summarises the maturity profile of the company's financial liabilities based on contractual undiscounted payments.

Year Ended	On Demand	3 to 12 Months	1 to 5 Years	>5 Years	Total

Borrowings	-	80.16	617.50	-	697.66
	-	80.16	617.50	-	697.66

49. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context:

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p>1. Accuracy and completeness of revenue recognized.</p> <p>The Company reported revenue of Rs.1592.08 Lakhs from sale of solar products. The application of revenue recognition accounting standards is complex and involves a number of key judgments and estimates. Due to the estimates and judgment and complexity involved in the application of the revenue recognition accounting standards, we have considered this matter as a key audit matter. The Company's accounting policies relating to revenue recognition are presented in note 4.12 to the financial statements.</p>	<p>We addressed the Key Audit Matter as follows: -</p> <ol style="list-style-type: none"> 1. As part of our audit, we understood the Company's policies and processes, control mechanisms and methods in relation to the revenue recognition and evaluated the design and operating effectiveness of the financial controls from the above through our test of control procedures. 2. Assessed the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof. 3. Review the company's judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time. 4. Tested a sample of sales transactions for compliance with the Company's accounting Principles to assess the completeness and accuracy of revenue recorded. 5. We evaluated the management's process to recognize revenue over a period of time, total cost estimates, status of the projects and re-calculated the arithmetic accuracy of the same. 6. Evaluated management assessment of the impact on revenue recognition. 7. We examined contracts with exceptions including contracts with low or negative margins, loss making contracts, etc. to determine the level of provisioning.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
	<p>8. Our tests of detail focused on transactions occurring within proximity of the year end and obtaining evidence to support the appropriate timing of revenue recognition, based on terms and conditions set out in sales contracts and delivery documents. We considered the appropriateness and accuracy of any cut-off adjustments.</p> <p>9. Performed analytical procedures over revenue and receivables. Compared revenue with historical trends and where appropriate, conducted further enquiries and testing.</p> <p>10. Traced disclosure information to accounting records and other supporting documentation.</p> <p>11. Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115.</p> <p>12. Our Observation: Based on the audit procedures performed we did not identify any material exceptions in the revenue recognition.</p>

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Management's Responsibility and those charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including

the Accounting Standards specified under Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014 the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the Companies included in Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the group are responsible for overseeing the company's financial reporting process of the Group.

Auditors Responsibilities for the audit of Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ◆ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ◆ Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by section 143(3) of the Act, we report, to the extent applicable that:
 - i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of aforesaid consolidated financial statements.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Financial Statements of the Company as of and for the year ended 31 March 2025, we have audited the internal financial controls over financial reporting of SURANA TELECOM AND POWER LIMITED ("the Holding Company") and its subsidiaries and one associate company (together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, to whom reporting under clause (i) of sub section 3 of section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

2. BASIS OF PREPARATION:

a) Statement of Compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (“Ind AS”) as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (“the Act”), read with the Companies (Indian Accounting Standards) Rules, 2015 (amended), guidelines issued by the Securities and Exchange Board of India (SEBI), and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Consolidated Financial Statement, other relevant provisions of the Act and other accounting principles generally accepted in India.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Basis of Measurement

The consolidated financial statements of the company have been prepared on historical cost basis except for the following assets and liabilities which have been measured at fair value:

- i) Certain financial assets & liabilities (including derivative instruments)
- ii) Defined Benefit Plans as per actuarial valuation
- iii) Share based Payments

c) Functional and Presentation Currency

The consolidated financial statements have been presented in Indian Rupees (INR), which is also the company’s functional currency. All financial information presented in INR has been rounded off to the nearest Lakhs as per the requirements of Schedule III, unless otherwise stated.

3. Basis of Consolidation

Subsidiaries

Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date when control ceases. The acquisition method of accounting is used to account for business combinations by the Company.

The Company combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, cash flows, income and expenses, Intercompany transactions, balances and unrealized gains on transactions between Company companies are eliminated. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

Joint Ventures

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the consolidated Ind AS contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

The joint arrangement is structured through a separate vehicle and the legal form of the separate vehicle, the terms of the contractual arrangement and, when relevant, any other facts and circumstances gives The company rights to the net assets of the arrangement (i.e. the arrangement is a joint venture). The activities of the joint venture are primarily aimed to provide the third parties with an output and the parties to the joint venture will not have rights to substantially all the economic benefits of the assets of the arrangement. The company's interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

Equity Method

Under the equity method of accounting, the investments are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the carrying amount of the investment is adjusted to recognise changes in the company's share of net assets of the joint venture since the acquisition date and the company's share of other comprehensive income. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually. When the company's share of losses in an equity accounted investment equals or exceeds its interest in the entity, the company does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Dividends received or receivable from joint ventures are recognised as a reduction in the carrying amount of the investment. The carrying amounts of equity accounted investments are tested for impairment.

Changes in ownership interests

When the company ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognised in statement of profit and loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as a joint venture. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the company had directly disposed off the related assets or liabilities. The amounts previously recognised in other comprehensive income are reclassified to statement of profit and loss. If the ownership interest in a joint venture is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to statement of profit and loss where appropriate.

Transactions eliminated on consolidation

Inter-group balances and transactions, and any unrealised income and expenses arising from inter-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the Investment to the extent of the company's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

d) Use of Assumptions, Judgments and Estimates

The key assumption, judgment and estimation at the reporting date, that have significant risk causing the material adjustment to the carrying amounts of assets and liabilities within the next financial year, are describe below. The company based its assumption, judgment and estimation on parameters available on the consolidated financial statements were prepared. Existing circumstances and assumption about future development, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumption when they occur.

i) Revenue

The application of revenue recognition accounting standards is complex and involves a number of key judgements and estimates. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. The company exercises judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time.

ii) Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, The Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An impairment loss is recognized as an expense in the consolidated statement of profit and loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

iii) Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

v) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vi) Share-based payments

The company measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

vii) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

viii) Classification of Leases

The company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

ix) Restoration, rehabilitation and decommissioning

Estimation of restoration/ rehabilitation/ decommissioning costs requires interpretation of scientific and legal data, in addition to assumptions about probability of future costs.

x) Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

xi) Allowances for Doubtful Debts

The company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.

e) Classification of Assets and Liabilities into Current/Non-Current

All assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013, as given below.

The company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- i) Expected to be realized or intended to sold or consumed in normal operating cycle;
- ii) Held primarily for the purpose of trading;
- iii) Expected to be realized within twelve months after the reporting period; or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

Similarly, a liability is current if:

- i) It is expected to be settled in normal operating cycle;
- ii) It is held primarily for the purpose of trading;
- iii) It is due to be settled within twelve months after the reporting period; or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current.

Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

4. SIGNIFICANT ACCOUNTING POLICIES:

A summary of the significant accounting policies applied in the preparation of the consolidated financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the consolidated financial statements, unless otherwise stated.

1) Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realizable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory arrived on weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Stores, spares and consumables

Stores spares, packing material and all consumables items held for use in the production of inventories are charged to profit & loss account as and when purchased.

Provision is recognized for damaged, defective or obsolete stocks where necessary.

2) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, Cheques on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

3) Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

4) Income Tax

Income Tax comprises current and deferred tax.

a) Current Tax

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961. Current income tax is recognized in the consolidated statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

b) Deferred Tax

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognized directly in equity or OCI is recognized in equity or OCI and not in the consolidated statement of profit and loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of interest in joint arrangements where The Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognized for temporary differences between the carrying amount and tax bases of interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilized.

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that The Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of credit to consolidated statement of profit and loss and shown as MAT credit entitlement. The company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

5) Property, Plant and Equipment

a) Recognition and Measurement

- i) Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).
- ii) Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.
- iii) In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labor, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and

restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.

- iv) For transition to IND AS, The Company has revalued land at fair value as deemed cost and considered other assets at Ind AS Cost.
- v) Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset is recognized in the consolidated statement of profit and loss.
- vi) Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to The Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.
- vii) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.
- viii) The company identifies and determines cost of asset significant to the total cost of the asset having useful life that is materially different from that of the remaining life.
- ix) Research and development costs that are in nature of tangible/ intangible assets and are expected to generate probable future economic benefits are capitalized and classified under tangible/intangible assets and depreciated on the same basis as other fixed assets. Revenue expenditure on research and development is charged to the statement of profit and loss in the year in which it is incurred.

b) Depreciation and Amortization

- i) Depreciation on property, plant and equipment is provided under Straight Line Method over the useful lives of assets prescribed by Schedule II of the Companies Act, 2013. Depreciation in change in the value of fixed assets due to exchange rate fluctuation has been provided prospectively over the residual life of the respective assets.
- ii) Depreciation in respect of property, plant and equipment added / disposed off during the year is provided on pro-rata basis, with reference to the date of addition/disposal.

6) Intangible Assets

- i) Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any.
- ii) Gains or losses arising from DE recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss.
- iii) Intangible assets are amortized on straight line basis over its estimated useful life of 5 years.

7) Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

8) Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

9) Investment in Joint-Venture

Investment in Joint-venture is measured at cost less impairment loss, if any.

The joint arrangement is structured through a separate vehicle and the legal form of the separate vehicle, the terms of the contractual arrangement and, when relevant, any other facts and circumstances gives the Company rights to the net assets of the arrangement (i.e. the arrangement is a joint venture). The activities of the joint venture are primarily aimed to provide the third parties with an output and the parties to the joint venture will not have rights to substantially all the economic benefits of the assets of the arrangement.

10) Investment in subsidiaries and associates

Investments in subsidiaries and associates are recognized at cost as per IND AS 27. Except where investments accounted for at cost shall be accounted for in accordance with IND AS 105, Non-current Assets held for Sale and Discontinued Operations, when they are classified as held for sale.

11) Leases**a) The company as lessor**

Leases for which The Company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

b) The company as lessee

The company assesses whether a contract is or contains a lease, at inception of the contract. The company recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, The Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed. Contingent and variable rentals are recognized as expense in the periods in which they are incurred.

c) Lease Liability

The lease payments that are not paid at the commencement date are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in The company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments) payable during the lease term and under reasonably certain extension options, less any lease incentives;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the Balance Sheet.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The company re-measures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is re-measured by discounting the revised lease payments using a revised discount rate.

d) Right of Use (ROU) Assets

The ROU assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever The Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under Ind AS 37- Provisions, Contingent Liabilities and Contingent Assets. The costs are included in the related right-of-use asset.

ROU assets are depreciated over the shorter period of the lease term and useful life of the underlying asset. If The Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. The depreciation starts at the commencement date of the lease.

The ROU assets are not presented as a separate line in the Balance Sheet but presented below similar owned assets as a separate line in the PPE note under "Notes forming part of the Financial Statement".

The company applies Ind AS 36- Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as per its accounting policy on 'property, plant and equipment'.

As a practical expedient, Ind AS 116 permits a lessee not to separate non-lease components when bifurcation of the payments is not available between the two components, and instead account for any lease and associated non-lease components as a single arrangement. The company has used this practical expedient.

Extension and termination options are included in many of the leases. In determining the lease term the management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option.

12) Revenue Recognition

Revenue represents amount receivable from sale of solar modules, sale of solar power and lease rental, stated net of discounts.

Ind AS 115 "Revenue from Contracts with Customers", introduced one single new model for recognition of revenue which includes a 5-step approach and detailed guidelines. Among other, such guidelines are on allocation of revenue to performance obligations within multi-element arrangements, measurement and recognition of variable consideration and the timing of revenue recognition.

The Company considers the terms of the contract in determining the transaction price. The transaction price is based upon the amount the entity expects to be entitled to in exchange for transferring of promised goods and services to the customer after deducting incentive programs, included but not limited to discounts, volume rebates etc.

a) Revenue from sale of goods

Revenue from the sale of solar modules is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. Company recognizes revenue at a point in time, when control is transferred to the customer, and the consideration agreed is expected to be received. Control is generally deemed to be transferred upon delivery of the products in accordance with the agreed delivery plan.

In case of related party transactions where related party meets the definition of customer (i.e. a party that has contracted with the Company to obtain goods or services that are an output of the Company's ordinary activity in exchange for consideration) and the transactions are within the scope of the standard then the revenue is recognized based on the principles of IND AS 115.

Revenues for services are recognized when the service rendered has been completed.

a) Revenue from services

Revenue from services mainly consists of the following;

- **Income from Lease Rent**

Revenue from services, which mainly consists of lease rentals from letting of space, is recognized over time on satisfying performance obligations as per the terms of agreement, that is, by reference to the period in which services are being rendered. Revenue from services, if any, involving single performance obligation is recognized at a point in time

- **Sale of energy**

Revenue from operations comprises of sale of power. Revenue is recognized at an amount that reflects the consideration for which the Company expects to be entitled in exchange for transfer of power (goods / service) to the customer. Revenue from sale of power is accounted for in accordance with tariff provided in Power Purchase Agreement (PPA) read with the regulations of respective regulatory authorities and no significant uncertainty as to the measurability or collectability exist. There is no impact on the adoption of the standard in the financial statement as the Company's revenue primarily comprised of revenue from sale of power and the recognition criteria of this revenue stream is largely unchanged by Ind AS 115.

Contract Assets

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Unbilled receivables where further subsequent performance obligation is pending are classified as contract assets when The Company does not have unconditional right to receive cash as per contractual terms. Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Impairment of Contract asset

The company assesses a contract asset for impairment in accordance with Ind AS 109. An impairment of a contract asset is measured, presented and disclosed on the same basis as a financial asset that is within the scope of Ind AS 109.

Contract Liability

Contract Liability is recognized when there are billings in excess of revenues and it also includes consideration received from customers for whom The Company has pending obligation to transfer goods or services.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

Modification in contract

Contracts are subject to modification to account for changes in contract specification and requirements. The company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The company disaggregates revenue from contracts with customers by industry verticals, geography and nature of goods or services.

b) Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that assets' net carrying amount on initial recognition.

c) Other Operating Revenue

Export incentive and subsidies are recognized when there is reasonable assurance that The Company will comply with the conditions and the incentive will be received.

13) Retirement and other employee benefits

a) Short Term Employee Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

b) Other Long Term Employee Benefits

The liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value (determined by actuarial valuation using the projected unit credit method) of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period and recognized in books of accounts. The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Re-measurements as the result of experience adjustment and changes in actuarial assumptions are recognized in consolidated statement of profit and loss.

c) Post-Employment Benefits

The company operates the following post-employment schemes:

i) Defined Benefit Plan

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods.

The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Past service cost is recognized in the consolidated statement of profit and loss in the period of a plan amendment. The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognized in Other Comprehensive Income (OCI) in the period in which they occur. Re-measurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to consolidated statement of profit and loss.

The company contributes to fund maintained with Life Insurance Corporation of India.

ii) Defined Contribution Plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation other than the contribution payable to the Provident fund. Contribution payable under the provident fund is recognized as expenditure in the consolidated statement of profit and loss and/or carried to Construction work-in-progress when an employee renders the related service.

14) Government Grants

Government grants are recognized at their fair values when there is reasonable assurance that the grants will be received and The Company will comply with all the attached conditions.

- a) Government grants are recognized in the statement of profit or loss on a systematic basis over the periods in which The company recognizes the related costs for which the grants are intended to compensate.
- b) Grants related to acquisition/ construction of property, plant and equipment are recognized as deferred revenue in the Balance Sheet and transferred to the statement of profit or loss on a systematic and rational basis over the useful lives of the related asset.

15) Foreign Currency Transactions

- a) The functional currency and presentation currency of The Company is Indian Rupee (INR).
- b) Transactions in currencies other than The Company's functional currency are recorded on initial recognition using the exchange rate at the transaction date. At each balance sheet date, foreign currency monetary items are reported using the closing rate.
- c) Non- monetary items that are measured in terms of historical cost in foreign currency are not retranslated. Exchange difference that arise on settlement of monetary items or on reporting of monetary items at each Balance sheet date at the closing spot rate are recognized in profit or loss in the period in which they arise except for:
 - i) exchange difference on foreign currency borrowings related to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings; and
 - ii) Exchange differences on transactions entered into in order to hedge certain foreign currency risks.

16) Borrowing Cost

Borrowing cost include interest expense calculated using the Effective interest method, finance charges in respect of assets acquired on finance lease and exchange difference arising on foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

Borrowing costs (including other ancillary borrowing cost) directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset hat necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale. The company considers a period of twelve months or more as a substantial period of time.

Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the consolidated statement of profit and loss in the period in which they are incurred.

17) Earnings per Share

Earnings per share is calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

18) Exceptional Item

Exceptional items include income or expense that are considered to be part of ordinary activities, however are of such significance and nature that separate disclosure enables the user of the financial statements to understand the impact in a more meaningful manner. Exceptional items are identified by virtue of either their size or nature so as to facilitate comparison with prior periods and to assess underlying trends in the financial performance of the Company.

19) Financial Guarantee Contract

Financial guarantee contract provided to the lenders of the Company by its Parent Company is measured at their fair values and benefit of such financial guarantee is recognized to equity as a capital contribution from the parent.

20) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the company and its joint-venture entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in consolidated statement of profit and loss.

a) Financial Assets**i) Classification and Subsequent Measurement**

For purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at Amortized Cost
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI)
- Measured at Fair Value Through Profit or Loss (FVTPL) and
- Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period The Company changes its business model for managing financial assets.

★ Measured at Amortized Cost

The Financial assets are subsequently measured at the amortized cost if both the following conditions are met:

- ★ The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
- ★ The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as FVTPL. Interest income is recognized in the consolidated statement of profit and loss.

★ **Measured at Fair Value Through Other Comprehensive Income (FVTOCI)**

The financial assets are measured at the FVTOCI if both the following conditions are met:

- ★ The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and
- ★ The asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on re-measurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the consolidated statement of profit and loss in investment income.

★ **Measured at Fair Value Through Profit or Loss (FVTPL)**

Financial assets are measured at fair value through profit or Loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. Gains or losses arising on re-measurement are recognized in the consolidated statement of profit and loss. The net gains or loss recognized in consolidated statement of profit and loss incorporates any dividend or interest earned on the financial assets and is included in the "Other income" line item.

★ **Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI)**

All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, The Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case The Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

ii) **DE recognition**

The company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

iii) **Impairment of Financial Assets**

In accordance with Ind AS 109, The Company uses 'Expected Credit Loss' (ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- ★ The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- ★ Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Group applies 'simplified approach' which requires expected lifetime losses to be recognized from initial recognition of the receivables. The company uses historical default rate to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analyzed.

For other assets, The Company uses 12 month ELC to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ELC is used.

iv) **Foreign exchange gains and losses**

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortized cost, the exchange differences are recognized in the consolidated statement of profit and loss.

b) **Financial Liabilities and equity instruments**

Debts and equity instruments issued by the company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instruments.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an equity after deducting all of its liabilities. Equity instruments issued by The Company are recognized at the proceeds received, net of direct issue costs.

Financial Liabilities

i) Recognition and Initial Measurement

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

ii) Subsequent Measurement

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

iii) Financial Guarantee Contracts

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument.

Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

iv) De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

v) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortized cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortized cost of the instruments and are included in consolidated statement of profit and loss. The fair value of the financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period.

vi) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

c) Derivative financial instruments

The company uses derivative financial instruments such as forward, swap, options etc. to hedge against interest rate and foreign exchange rate risks, including foreign exchange fluctuation related to highly probable forecast sale. The realized gain / loss in respect of hedged foreign exchange contracts which has expired / unwanted during the year are recognized in the consolidated statement of profit and loss and included in other operating revenue / other expense as the case may be. However, in respect of foreign exchange forward contracts period of which extends beyond the balance sheet date, the fair value of outstanding derivative contracts is marked to market and resultant net loss/gain is accounted in the consolidated statement of profit and loss. Company does not hold derivative financial instruments for speculative purposes.

d) Derivatives and Hedge Accounting

Derivatives are initially recognized at fair value and are subsequently premeasured to their fair value at the end of each reporting period. The resulting gains / losses are recognized in Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of recognition in profit or loss / inclusion in the initial cost of non-financial asset depends on the nature of the hedging relationship and the nature of the hedged item. The company complies with the principles of hedge accounting where derivative contracts are designated as hedge instruments. At the inception of the hedge relationship, the company documents the relationship between the hedge instrument and the hedged item, along with the risk management objectives and its strategy for undertaking hedge transaction, which is a cash flow hedge.

e) **Cash Flow Hedge**

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in the other comprehensive income and accumulated as 'Cash Flow Hedging Reserve'. The gains / losses relating to the ineffective portion are recognized in the Statement of Profit and Loss. Amounts previously recognized and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non-financial asset, such gains / losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non- financial asset. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gains /losses recognized in other comprehensive income and accumulated in equity at that time remain in equity and is reclassified when the underlying transaction is ultimately recognized. When an underlying transaction is no longer expected to occur, the gains / losses accumulated in equity are recognized immediately in the Statement of Profit and Loss

21) **Provisions, Contingent Liabilities and Contingent Assets**

a) **Provisions**

i) **Provisions are recognized when The company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.**

Provisions is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received.

ii) **Decommissioning Liability**

Restoration/ Rehabilitation/ Decommissioning cost are provided for in the accounting period when the obligation arises based on the NPV of the estimated future cost of restoration to be incurred. It includes the dismantling and demolition of infrastructure and removal of residual material. This provision is based on all regulatory requirements and related estimated cost based on best available information.

iii) **Onerous Contracts**

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

b) **Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of The Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

c) **Contingent Assets**

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

22) **Operating Segment**

The identification of operating segment is consistent with performance assessment and resource allocation by the chief operating decision maker. An operating segment is a component of The Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the other components of The Company and for which discrete financial information is available. All operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

23) Employee Share based payment

Equity- settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date. The fair value of option at the grant date is expensed over the vesting period with a corresponding increase in equity as "Employee Stock Options Account". In case of forfeiture of unvested option, portion of amount already expensed is reversed. In a situation where the vested option forfeited or expires unexercised, the related balance standing to the credit of the "Employee Stock Options Account" are transferred to the "General Reserve".

24) Measurement of Fair Values

A number of The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by The Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b) Level 2 — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- c) Level 3 — Inputs which are unobservable inputs for the asset or liability.

External values are involved for valuation of significant assets & liabilities. Involvement of external values is decided by the management of The Company considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

25) Non-Current Assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through as sale rather than through continuing use of the assets and actions required to complete such sale. Indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification. On-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortized.

26) Events after Reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

27) Research and Development

Expenditure on research is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

49. financial risk management objectives and policies

The Company's principal financial liabilities other than derivatives comprise long-term and short-term borrowings, capital creditors and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets other than derivatives include trade and other receivables, cash and cash equivalents and deposits that derive directly from its operation.

The Company is exposed to market, credit, liquidity and regulatory risks. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: commodity risk, interest rate risk and foreign currency risk.

(i) Commodity Price Risk

Company is affected by the price volatility of certain commodities, primarily, Solar Module. Its operating activities require the on-going purchase of these materials. The company has arrangement to pass-through the increase/decrease in these material price through price variance clause in majority of the contract.

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rate relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). Further, the Company has foreign currency risk on import of input materials, capital commitment and also borrow funds in foreign currency for its business. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies, for the remaining exposer to foreign exchange risks, the Company adopts a policy of selective hedging based on risk perception of management using derivative, whenever required, to mitigate or eliminate the risks.

(iii) Interest Rate risk

The Company is exposed to interest rate risk on financial liabilities such as borrowings, both short-term and long-term. It maintains a balance of fixed and floating interest rate borrowings and the proportion is determined by current market interest rates, projected debt servicing capability and view on future interest rates.

(All amounts are in Indian Rupee (lakhs) except share data and where otherwise stated)

B. Credit Risk

Financial Asset of the Company include trade receivables, employee advances and bank deposits which represents Company's maximum exposure to the credit risk.

With respect to credit exposure from customers, the Company has a procedure in place aiming to minimize collection losses. Credit Control team assesses the credit quality of the customers, their financial position, past experience in payment and other relevant factors. The Company's exposure to credit risk is influence mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including default risk associated with the industry and country in which customers operate. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. With respect to other financial risk VI loan and advances, deposit with government, the credit risk is insignificant since the loans and advances are given to its employees only and deposits are held with reputable banks. The credit quality of the financial assets is satisfactory, taking into account the allowance for credit losses.

C. Regulatory Risks

The Company performance may be impacted due to change in Regulatory Environment. The Company is closely monitoring the regulatory developments and risks thereof and proactively implementing course correction for proper compliance commensurate with new regulatory requirements.

D. Liquidity Risk

The company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans

The table below summarizes the maturity profile of the company's financial liabilities based on contractual undiscounted payments.
